

Customizing Fonts on Wisdom Interface Website

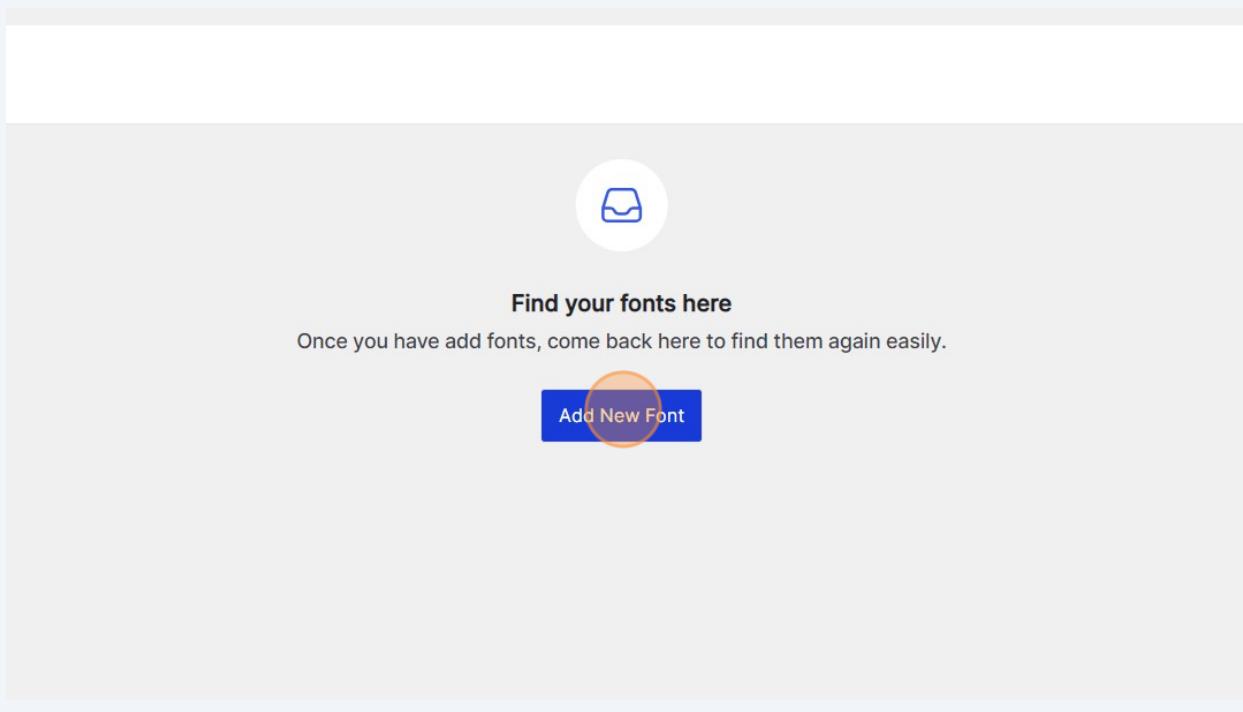

Scribe 

- 1 Open Dashboard and Click On "Custom Fonts"

The screenshot shows the Brizy Dashboard. On the left, a dark sidebar lists various site management options: Pages, Comments, Flamingo, Contact (1), Brizy, Appearance, Plugins (2), Users, Tools, Settings, File Monitoring, AAM, and Custom Permalinks. The 'Custom Fonts' option is highlighted with a red circle. The main content area is titled 'Brizy Overview' and features a 'News & Updates' section. The first item in this section is 'Introducing White Label AI Website Builder, Plans PRO Trial'. Below it is a blog post titled 'Brizy's AI Website Builder: Building Beautiful Sites Has Never Been Easier', which discusses how AI-powered solutions are revolutionizing web development. The right side of the dashboard includes a 'Quick Draft' section for entering a title and content, and a 'WordPress Events and News' section.

2 Click On "Add New Font"

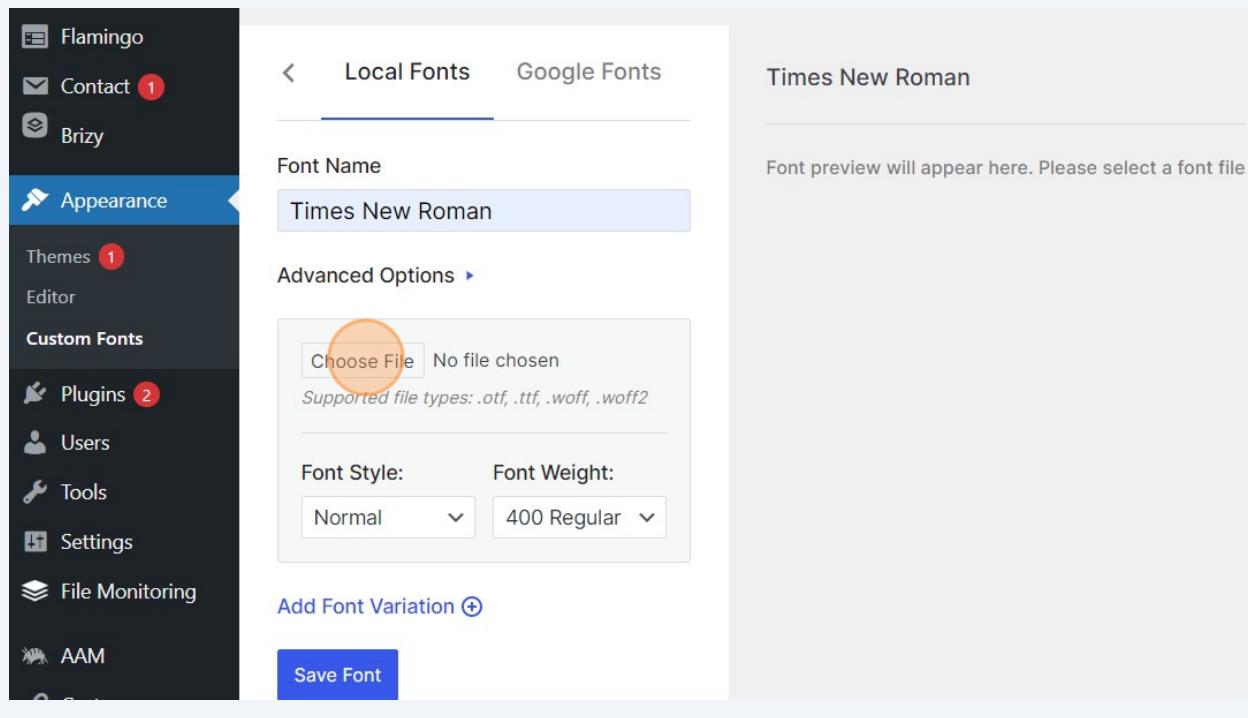

3 Click on this text field and Enter your font name.

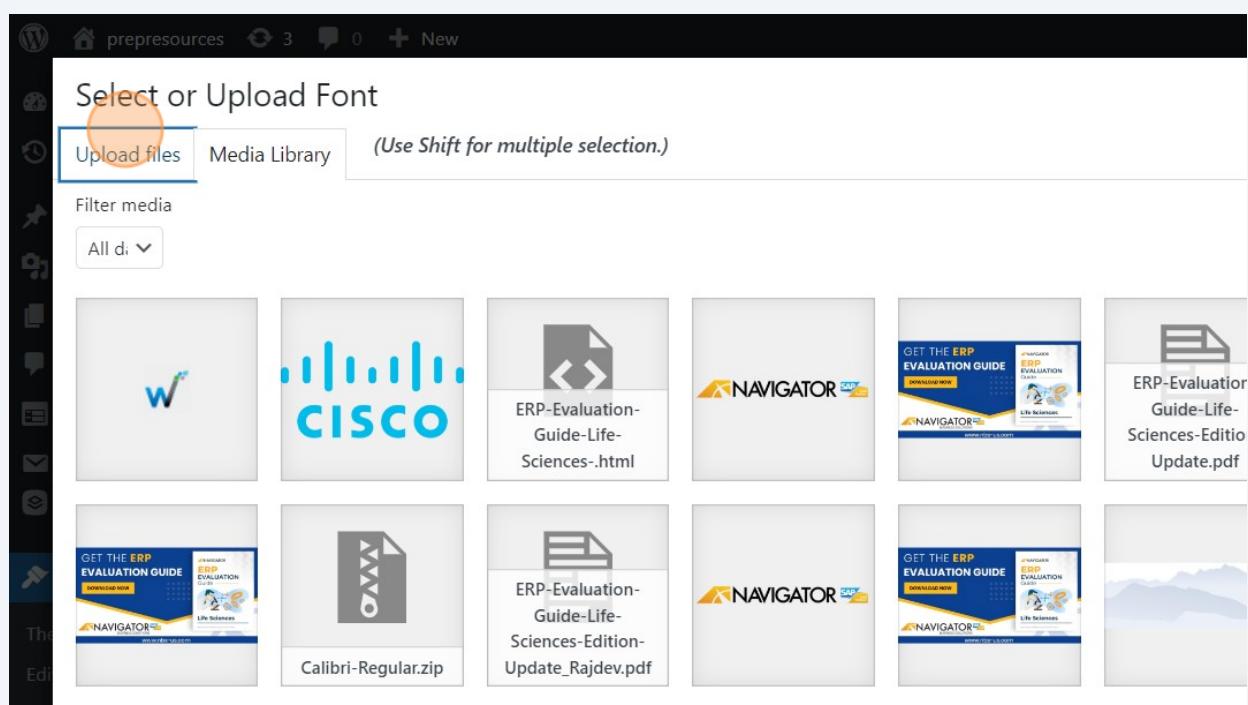

A screenshot of the Brizy WordPress dashboard. The left sidebar shows a dark theme with various menu items: Media, Pages, Comments, Flamingo, Contact (1), Brizy, Appearance (selected), Themes (1), Editor, Custom Fonts (highlighted), Plugins (2), Users, Tools, and Settings. The main content area has a light gray background. It features a "Hello!" message and rating options. Below that, a "Local Fonts" tab is selected, showing a "Font Name" input field which is highlighted with an orange circle. To the right, there is a "Font Preview" section with a placeholder message "Font preview will appear here. Please select a font file." and "Advanced Options" with dropdowns for "Font Style" (Normal) and "Font Weight" (400 Regular).

4 Click "Choose File" and Upload the font file.

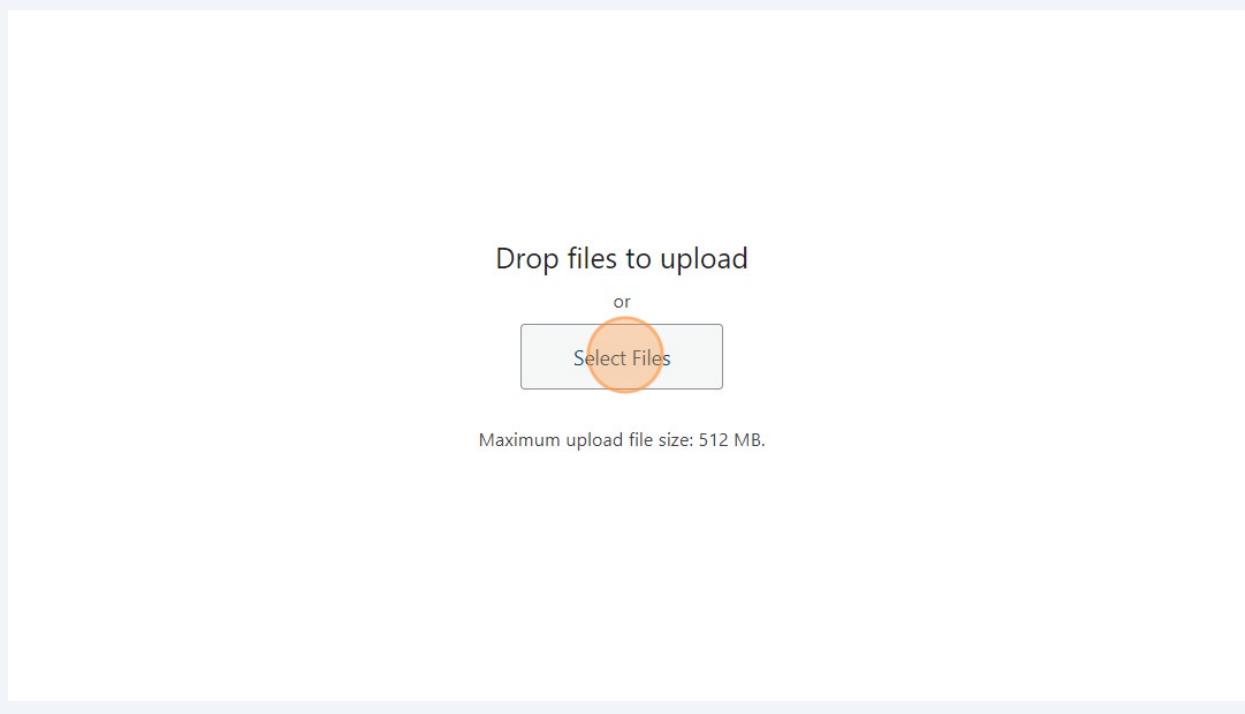

Note: Supported font file type is ".otf", ".ttf", ".woff", ".woff2" remember that your uploaded file type should be any of above mention file type.

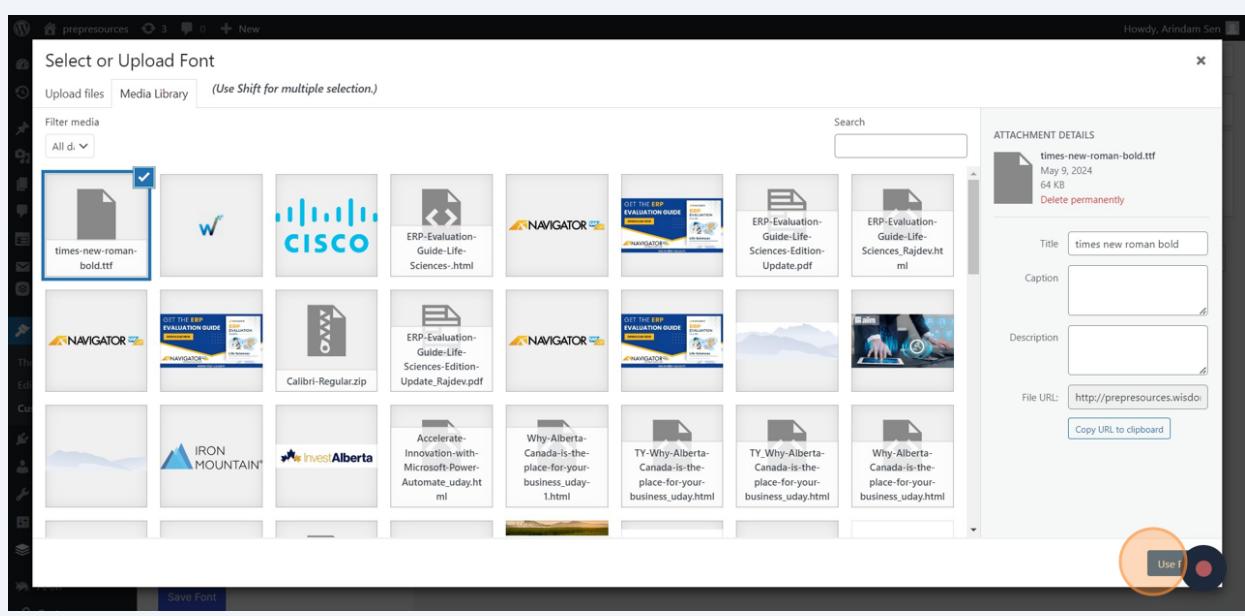

5 Click On "Upload files"

6 Click On "Select Files"

7 Select the uploaded files and Click on "Use Font"

8

Click on "Save Font"
